

Targeted Insurance Protection

## CRAFT BEVERAGE PROGRAM

Equipment Breakdown Coverage

TARGET  
MARKETS

### Carefully crafted protection

Because you work hard to ensure the success of your business, it makes sense that your program includes coverage for unexpected equipment breakdowns. The Cincinnati Insurance Company's equipment breakdown coverage helps protect you against financial loss from the sudden and accidental breakdown of machinery and equipment, including your production equipment, heating and air conditioning systems, boilers, heat exchangers, presses... and more.

Equipment breakdown coverage adds mechanical breakdown as a covered cause of loss, protecting your business for direct damage and business-interruption losses caused by an accidental loss to a vital piece of equipment.

Consider these scenarios:

- A high-pressure fermenter explodes, causing extensive damage to your manufacturing line and building. Equipment breakdown coverage covers the damage to your equipment and your building.
- A gear in a bottling line suddenly breaks, shutting down your production. Cincinnati's equipment breakdown coverage pays up to the policy limit for your cost to repair or replace the damaged gear and your lost income or extra expense caused by the accident.

### Added-value inspection service

Cincinnati's representatives – commissioned by the National Board of Boiler and Pressure Vessel Inspectors – perform inspections of boilers and pressure vessels as required by many state and municipal jurisdictions. Inspections help you comply with state and local boiler and pressure vessel laws.

By insuring your equipment against failure or breakdown, you can greatly reduce your worry when they occur. Your local, independent agent representing Cincinnati can provide more information about this valuable coverage feature.
